

## Happy Families - Questions

### How to play

- Deal four cards to each player.
- Place the remaining cards face down in a pack in the middle of the group.
- A player starts by asking any of the other players for one of the families in his hand. For example: "Do you have eat? If the player says 'yes' he then asks for a specific card from that family. For example: "What do you eat for breakfast?"
- Use the WH Questions on the card to help ask questions
- If the player has that card, he gives it to him and answer with a positive answer, "I eat eggs and toast for **breakfast**?" The first player has another turn.
- Play moves to the next player when the first player either completes a family or doesn't receive a card he has asked for.
- The player with the most families is the winner.

## Question Cards

Cut out the question cards and place them face down in the middle of the group.

Each student takes a turn to ask a question one of the other students a question.

The cards can be used before or after the Happy Families game.
