

The months of the year

In January I ski - who wants to ski with me?

In February I play in the snow - to build a snowman, I know.

In March the animals like to play - they like to play all day.

In April the flowers bloom - it's time to spring-clean your room.

In May the weather is warm - it is the end of the storm.

In June the sun starts to shine - time to drink a cool glass of wine.

In July the weather is hot - let's find a shady spot.

In August it's time for a trip - a trip on a nice cruise ship.

In September the summer is over - the autumn is about to take over.

In October the weather is cool - not the time to go to the pool.

In November it can rain - in Israel and in Spain.

In December everything is white - in the morning and at night.

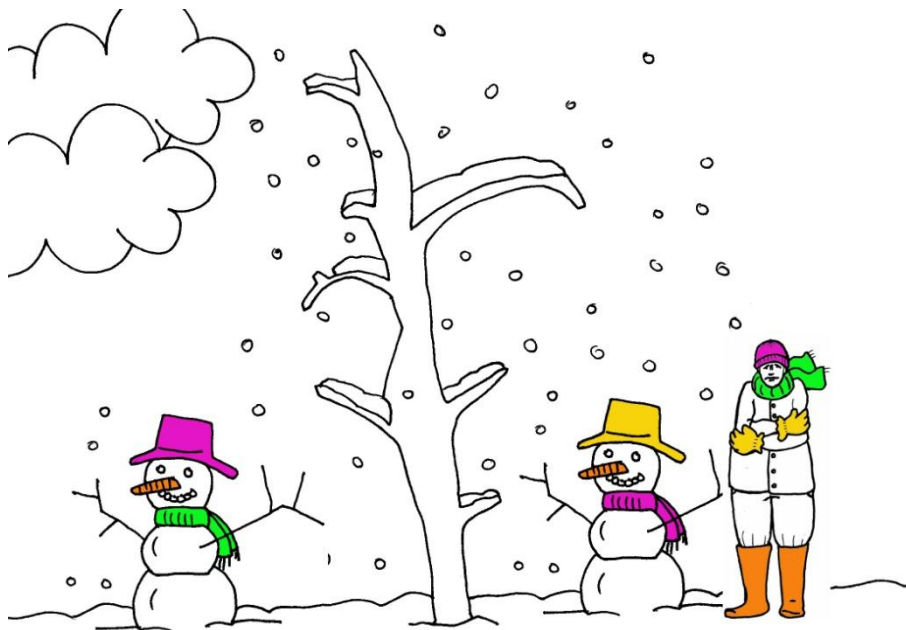

The months of the year

Answer the questions:
